The Observer s Quantum Reality: The Observer s Quantum Reality (Paperback)

By R a Z Jr

Rodrigo A. Zapata Jr., United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The Observer s Quantum Reality: Is a lower cost Blk/Wht version of The Observer s Reality metaphysics color book where the mystery of true reality is resolved. True reality of our existence is explained as 12 different alternatives of emergent probabilities. A new compact, informative metaphysics book with radical and controversial out of the box ideas about the true nature of our reality that will take you on a virtual discovery journey from the author s point of view as an observer of our reality. The author will tell how the puzzle pieces fall into place and explain twelve of the most profound and fascinating life mysteries of our past, present, and future universe, or a quantum binary biniverse as per his new sinewave cycle graphical biniverse emergence theory. With the observer s perceptions, readers will tackle twelve of life s most intriguing questions that humans consider the scientific, religious, and life phenomena of the most popular unknown mysteries, legends, and or mystical myths about existence, how everything in existence that came to be is given possible solutions that...
