

Cooperative beamforming in multi-user multi-relay networks

Filesize: 2.41 MB

Reviews

A brand new e book with an all new point of view. I have got read and i am sure that i am going to likely to read through once more once more in the future. It is extremely difficult to leave it before concluding, once you begin to read the book.
(Ms. Teagan Osinski III)

COOPERATIVE BEAMFORMING IN MULTI-USER MULTI-RELAY NETWORKS

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | SINR optimization under power constraints for multiple-access cooperative networks | The demand for high speed reliable communication systems will never stop increasing. Many challenges face researchers trying to provide such systems and schemes. Cooperative networks have been successfully used to enhance the performance of telecommunication systems. Among different cooperative strategies, distributed cooperative relaying have shown to be a promising scheme. This work addresses the problem of optimizing the precoding vectors in order to improve the system performance of multi-user multi-relay cooperative networks. Precoding vectors are used to cancel out the multiple access interference, maximize the signal to noise ratio at the destination, and optimize the power allocation at relaying stations. | Format: Paperback | Language/Sprache: english | 220 pp.
