Women Unlimited, New Delhi, 2007. Hardcover. Book Condition: New. This monograph reviews twenty-five years of protest and action by them, in an attempt to take both our analysis and theories forward. It maps the trajectory of feminist organizing in India in the post-Emergency period, after 1977; the paths of legal reform and the points at which they have intersected with, or resulted from, feminist campaigns; the text texture of campaigns and the creativity with which women`s groups have fashioned and sustained difficult struggles against violence; the persistence of feminist interventions and the ways in which different groups have been able to tilt the balance in favour of women in perceptible ways; and the escalation of collective violence, increasingly by agents of the state, against women. Notwithstanding the diversity of formal political affiliations and theoretical analyses within the women`s movement, the last twenty-five years have seen the evolution of a minimum consensus that categorically rejects any rationalization of violence against women, even while recognizing its complexity.
