

Ontologies for Developing Things: Making Health Care Futures Through Technology

By Casper Bruun Jensen

Sense Publishers. Hardcover. Condition: New. 196 pages. Dimensions: 9.3in. x 6.2in. x 0.7in. Ontologies for Developing Things offers a series of conceptually inventive analyses of the future-making processes put in motion in contemporary health care systems with the introduction of electronic patient records and other communication technologies. The book shows how such technological development and implementation processes are bound up with multiple other issues: professional, social, economic and political. Through such processes health care ontologies gradually change, often with unanticipated effects. In analyzing these effects, Jensen offers a highly innovative interpretation of where science and technology studies could be headed - towards performative, non-humanist modes of inquiry. Casper Bruun Jensen is one of the most intellectually accomplished and creative theorists of second-generation Science and Technology Studies (STS) as well as one of the most active and productive researchers in the field. In Ontologies for Developing Things, he offers a series of highly original delineations and vigorous defenses of recent developments--or, as he calls them dispositions--in STS (ontological, performative, pragmatist, and so forth) through a series of parallel narrations of his own onsite studies of the introduction of new medical-information technologies in Denmark and Canada. Ontologies for Developing Things is a...
